NOTES

February 9, 1970

To the Taxpayers of Weymouth and Town Meeting Members:

The Appropriation Committee is recommending for the second time, that the Town Meeting members vote a segregated budget for each department. The segregation will include overtime salaries this year and a general consolidation of a few accounts, i.e., Fuel, Light and Telephone. We are also recommending that after November 1, 1970, the Town Accountant may transfer from one item to another within a department, with the approval of the Appropriation Committee, as stated in Item No. 261. This is being done to eliminate the need of a reserve fund transfer if there is monies available in another account.

If our recommendations are adopted by the Town Meeting Members, we are estimating a tax rate of \$46.19 (as detailed in Table C), an increase of 22.8%. The main reasons for the increase are as follows:

1. An increase in the school budget of \$1,200,000 which equals \$3.40 on the tax rate.
2. A reduction of free cash in the amount of \$500,000. due to approximately \$700,000. in unpaid 1969 taxes. This equals \$1.42 on the tax rate.
3. In 1969 the Town Meeting put approximately \$1,000,000. in bond issue over the usual amount due to the uncertainties in the implementation of the revaluation program. This item equals \$2.83 on the tax rate.
4. Increase in the total debt and interest amount due in 1970 of \$479,000., which equals \$1.36 on the tax rate.

The increase in the school budget is due primarily to the opening of the South High School and the addition to the Seach School. The expenses connected with these openings are for one-quarter of the year. In 1971 these schools will be open for the entire year, along with the two new elementary schools which are planned for opening in September of 1971, if approved by Town Meeting. It is anticipated another substantial increase will be reflected in the 1971 School Department budget.

In 1970 the Appropriation Committee is recommending a return to a conservative "pay as you go" policy. The only items we are recommending be put on bond issue are the Union Street School, 40% of the sewer program and drainage for the Torrey Street area.

As shown on Chart 3 — Total Debt, the Town of Weymouth has \$18,800,000 outstanding in bond issues, with an antici-

pated \$3,490,000 increase in 1970 due to two elementary schools, if approved by Town Meeting, and the 1970 sewer and drainage program. This increase will make our bonded indebtedness at approximately \$20,000,000 at year end. We may expect the maturing bonds and interest to be a significant factor in the increase in our tax rate in subsequent years. It is also worthy to note that interest rates on municipal bonds are extremely high.

The Appropriation Committee is recommending a 6% pay increase across the board for full-time employees. We are basing this increase on the cost of living increase and the fact that Town Employees have had 26% worth of pay increases in the past three years, well above the cost of living increases during this same period. Cumulatively this 26% equals 28.2%. The Appropriation Committee recognizes that the Town Employees are the greatest asset the Town has, however, we must also recognize the Town's ability to pay. All we have to do is look back to the Special Town Meeting last July when the high school auditorium was filled with distraught tax payers.

After reviewing the budgets, we have made some substantial reductions from the requests in order to keep the tax rate from going well above the \$46. level. It should be kept in mind that each additional appropriation of \$353,000 above the recommended amounts will add one dollar to the tax rate.

The Appropriation Committee met 47 times since the last Annual Town Meeting. We were disappointed to note that during our meetings the attendance was just about non-existent except for the Departments or citizens interested in a particular item. We believe that our form of government is truly the best, however, if it is to be strong, it must come from the citizenry of the town or it will decay.

We wish to thank all Boards and Committees for their cooperation. In particular, we wish to thank Mr. Warren Raulston, Town Accountant, for the help in preparing the financial data and Mr. Frank Lagrotteria, Town Engineer, for the preparation of the charts, maps and sketches for the Recommendation Booklet and for the preparation of the transparencies for use at Town Meeting.

Respectfully submitted,
